https://hanamantpotaraddi.github.io/ Portfolio

Summary

Entry-Level Cybersecurity Professional with hands-on internship experience across Security Operations (SOC) and Cybersecurity & Penetration Testing (CSP) domains. Proficient in SIEM monitoring (Splunk, IBM QRadar), incident triage, log analysis, vulnerability assessment, and web application security aligned with MITRE ATT&CK and NIST frameworks. CEH Master (v13 + AI) certified, with practical exposure to breach investigation and IOC analysis through the Deloitte Australia Cyber Job Simulation (Forage).

Education

Bachelor of Computer Applications | 2021-2025 | CGPA: 7.32

Shri S.R. Kanthi Degree College, Mudhol

Pre-University Course (PUC)

M.K. PU Commerce & Arts College, Mudhol

Certifications

- **EC-Council Certified Ethical Hacker (CEHv13) Master**
- **EC-Council Certified Ethical Hacker (CEHv13) Practical**
- **EC-Council Certified Ethical Hacker (CEHv13)**
- **Hacker School Certified Cyber Security Professional (HSCCSP)– Jul 2025**
- **Deloitte Australia Cyber Job Simulation – Forage (Feb 2026)**

Experience

Cybersecurity Intern (CSP + SOC) — Hacker School (Cartel Software Pvt. Ltd.) **January 2025 - July 2025**

- Conducted **Network and Web Application Vulnerability Assessments & Penetration Testing** using Nmap, Nessus, Burp Suite, and Metasploit.
- Monitored **security events** using **Splunk and IBM QRadar**, performed log correlation, and investigated suspicious network activities.
- Assisted in **incident triage and response**, identifying **Indicators of Compromise (IOCs)** and escalating verified incidents.
- Developed **Python and Bash scripts** to automate **alert triage, log analysis,** and **vulnerability scanning.**
- Gained hands-on experience in **Linux administration, Active Directory Pentesting, Threat Intelligence,** and **Cloud Security.**
- Strengthened SOC-level skills in **monitoring, detection**, **and mitigation** of cyber threats following **NIST** and **ISO 27001 frameworks.**

Technical Skills

- **Security Operations & Monitoring :** SIEM (IBM QRadar, Splunk) | Log Analysis | Threat Detection | Incident Response | MITRE ATT&CK | Alert Correlation
- **Cybersecurity & Network Defense :** Vulnerability Assessment | Penetration Testing | Network Scanning | Exploitation | IDS/Firewall Analysis | Risk Assessment
- **Web & Application Security :** OWASP Top 10 | SQL Injection | Cross-Site Scripting (XSS) | File Inclusion | Authentication Bypass | Web Security Testing
- **Threat Intelligence & Governance :** IOC Analysis | Threat Hunting | ISO 27001 | NIST | GDPR | HIPAA | PCI-DSS | Compliance Monitoring
- **Operating Systems & Administration :** Linux (User/Group Management, Permissions, Processes) | Windows Security | Shell Scripting
- **Tools & Scripting :** Burp Suite | Metasploit | Nmap | Nessus | Wireshark | Nikto | sqlmap | OWASP ZAP | Python | Bash

Projects

- **Advanced Penetration Testing (CEH Master):** Executed end-to-end penetration testing and VAPT across network and web applications; identified critical vulnerabilities and delivered actionable remediation plans.
- **Practicing Capture The Flag (CTF):** Engaged in CTF challenges on TryHackMe to strengthen hands-on skills in SOC analysis, incident response, and threat detection.
- **Deloitte Australia Cybersecurity Virtual Experience Program – Forage | Feb 2026**
  - Analyzed web server and authentication logs to identify suspicious user activity and anomalous IP behavior during a simulated security breach.
  - Investigated Indicators of Compromise (IOCs) and documented incident response findings with remediation recommendations.
