Summary

Entry-level Penetration Tester and Ethical Hacker with **CEH Master (v13 + AI) and CEH Practical certifications**, and hands-on experience in **web, network, and infrastructure VAPT**. Skilled in **exploiting OWASP Top 10 vulnerabilities** using **Burp Suite, Metasploit, Nmap, Nessus, Wireshark, and OWASP ZAP,** with strong capabilities in **reconnaissance** and **privilege escalation.**

Education

Bachelor of Computer Applications | 2021-2025 | CGPA: 7.32

Shri S.R. Kanthi Degree College, Mudhol

Pre-University Course (PUC)

M.K. PU Commerce & Arts College, Mudhol

Certifications

- **EC-Council Certified Ethical Hacker (CEHv13) Master**
- **EC-Council Certified Ethical Hacker (CEHv13) Practical**
- **EC-Council Certified Ethical Hacker (CEHv13)**
- **Hacker School Certified Cyber Security Professional (HSCCSP)– Jul 2025**
- **Deloitte Australia Cyber Job Simulation – Forage (Feb 2026)**

Experience

Cybersecurity Intern (CSP) — ***Hacker School*** *(Cartel Software Pvt. Ltd.)* *Jan 2025 – Jul 2025*

- Conducted **end-to-end penetration testing (VAPT)** on **web applications, networks, and Linux/Windows systems** following **PTES and CEH methodology**.
- Performed **network reconnaissance and packet analysis** using **Nmap, Wireshark**, identifying exposed services, misconfigurations, and insecure protocols.
- Exploited **OWASP Top 10 web vulnerabilities** including **SQL Injection, XSS, CSRF, IDOR, authentication & session management flaws** using **Burp Suite, OWASP ZAP, Nikto, Sqlmap, Gobuster**.
- Executed **manual exploitation and post-exploitation techniques**, including **Linux & Windows privilege escalation**, password attacks, and lateral movement basics.
- Conducted **vulnerability scanning (authenticated & non-authenticated)** and interpreted **CVSS scores** to assess risk severity and exploitation impact.
- Prepared **professional VAPT reports** with proof-of-concept (PoC), attack paths, risk categorization, and remediation recommendations aligned with **OWASP & NIST** standards.

Technical Skills

- **Penetration Testing & VAPT:** Web, network, and infrastructure penetration testing following PTES, OWASP, and CEH methodologies.
- **Web Application Exploitation:** OWASP Top 10 vulnerabilities including SQL Injection, XSS, CSRF, IDOR, authentication & session management flaws.
- **Network & Linux Security:** Network reconnaissance, packet analysis, service enumeration, Linux/Windows privilege escalation, and misconfiguration exploitation.
- **Security Tools:** Burp Suite, OWASP ZAP, Metasploit Framework, Nmap, Nessus, Wireshark, Nikto, Sqlmap, Gobuster.
- **Reconnaissance & OSINT:** Subdomain enumeration, directory brute-forcing, DNS analysis, service fingerprinting, and attack surface mapping.
- **Reporting & Risk Analysis:** Vulnerability validation, CVSS scoring, proof-of-concept (PoC) creation, and actionable remediation reporting.

Projects

- **Advanced Network & Web Penetration Testing:** Performed the full attack lifecycle (reconnaissance, scanning, exploitation, post-exploitation) on web and network targets; exploited **SQLi, XSS, weak authentication, misconfigurations, and insecure permissions**.
- **Web Application Exploitation (OWASP Top 10):** Built and attacked vulnerable applications using **Burp Suite, OWASP ZAP, Metasploit, and Sqlmap**, validating issues through **payload crafting, session hijacking, and access-control bypass**.
- **Linux & Network Security Assessment:** Conducted **Linux enumeration, service misconfiguration analysis, privilege escalation**, and **network traffic analysis** across **DNS, FTP, TCP/UDP, and ICMP**.
- **Capture The Flag (CTF) – Offensive Practice:** Solved hands-on challenges involving **web exploitation, password attacks, privilege escalation, and OSINT reconnaissance**.
